Technical Skills

- **Languages**   : HTML5, CSS3, JavaScript
- **Tools**   : Git, Github, Git Bash, VS Code, Figma (Wireframing, UI Design)
- **Currently Learning** : Tailwind Css, Reactjs
- **Other Skills**   : Mobile-First Design, Responsive Design

Capstone Defense

Financial Management System – Barangay (Capstone Project)

Description: A system designed to integrate and consolidate cash collections from various sources across different barangay systems.

Projects

- **Browser Extension Manager UI** (**JavaScript**)   - Replicates an extension management interface where users can view, toggle, and remove installed extensions.

- **Fylo Dark Theme Landing Page (Css)** - A visually appealing dark-themed landing page emphasizing clean layout, responsive design, and strong visual hierarchy.

- **Product List with Cart (React.Js)** - Responsive product list page with a fully functional shopping cart. Users can add/remove items and view total costs dynamically.

- **Event Hub (Personal Project – React.js, Tailwind CSS)**- A smart event discovery platform—create and browse events by category, with intuitive navigation and search features.

EDUCATION

College: **Bachelor of Science in Information Technology**   **SY 2019-2024**
